BAYSHIRE RANCHO MIRAGE
SENIOR LIVING

SKILLED NURSING

COACHELLA VALLEY'S BOUTIQUE SKILLED NURSING

Bayshire Rancho Mirage offers exceptional skilled nursing care for seniors recovering from surgery, rehabilitating from a specific injury or trauma, or those in need of high acuity nursing care. Our highly trained team of registered nurses are on-site 24 hours a day, 7 days a week, providing general and specialized care to ensure a swift and complete recovery.

While many senior living communities offer skilled nursing, Bayshire Rancho Mirage's program includes many unique amenities. On top of access to 24-hour nursing care, our residents enjoy the attention of our in-house licensed therapists, who provide physical, occupational, and speech therapy, targeted rehabilitation, and retraining in the activities of daily living.

Our community welcomes seniors in need of short-term respite stays as well — no need for a long commitment! If additional long or short-term support is needed after a guest is discharged from skilled nursing care, our assisted living and memory care programs offer private -pay rehab suites to help provide a smooth transition. Here, residents can receive additional therapies through home health providers as needed, all with the support of the Bayshire Rancho Mirage care team. Whatever the need, our caregivers are devoted to helping seniors regain their independence, all in a comfortable community that feels just like home.
